RED RIVER SETTLEMENT.

TWILL REGATTA SHIRTS-Navy and other Patterns; FLANNEL UNDERCLOTHING; Everything affecting the condition and MOSIER Y .- Various descriptions; prospects of the immense British territory lying between Canada and British Columbia LIGHT TWEED SUMMER CLOTHING: MOLESKIN TROWSERS; must eminently concern the people of these PILOT REEFING COATS colonies. Occupying as that country does a BLANKETS-21/2 Points, White; large portion of the continent through which HOMAN'S AND OTHER ENGLISH Boots, Shoes, and Slippers; we anxiously await the construction of a road COCOA NUT MATTING and TABLE connecting us with our sister Provinces of the East-we must be desirous of the ac complishment of any thing that will tend to clevate its political status. Accordingly we hail with satisfaction the movement recently CHIDDAR & WILTSHIRE CHEESES, made by the people of Red River Settle ment in favor of representative and respon OATPI ZAI,-Island and California; sible Government. They have awakened to RICE-Patna; Table; a sense of the blighting influence which the PRESERVED MEATS, SOUPS, and Vegetables; Hudson's Bay Company have so long exercised over that fine country. They perceive CURRY POWDER-Best East India; that they have been governed not for the good of the Settlement, but that the Stockhelders in England may grow rich. When they look upon the immense change effected within a few years in Canada where counties that twenty years ago had not a white in-CANDLES-Belmont Sperm, etc., etc.; Price's and Beach's; habitant, have now a population greater than SALAD OIL; LONDON SOAP and STARCH; that of all this territory, they see what they have lost. Even British Columbia and Van couver Island on the remote side of the Continent, are filling up with population while they are at a stand still-nothing els in fact than a hunting ground for the Com-BRANDY-HENNESSY, Paic and Brown, khds pany. They desire therefore to have this state of things changed. They are unwilling any longer to be governed by the servants o monopolists who have so long hung o'er them HOLLAND GEN-J. de K, L., Red Case; like a huge night mare. They are ruled by WHISICY-Campbelton, Tierces and Cases; a Governor and Council, but in the choosin HUM-Fine Strong, puncheons and qr casks; of that Council they have no voice. Ac-SHEERRY and PORT WINE-In wood and case, Very Choice; cordingly when some short time ago the Coun CLARET-La Rose & Margaux, in 2 and 3 doz Cases: cil at the instigation of the Company got upla petition to the Home Government for a body of troops for the settlement, the popula party set on foot a counter petition, asking for a complete change in the form of government, and also for troops, but stating at the same time they cannot afford to defray the expense of the latter. Meetings were held over all the settlement. Speeches made in suppor of the popular movement by several prominent persons, and the opponents of the Com pany were everywhere successful. Among the epeakers upon the occasion were Mr. James Ross, a merchant of Fort Garry This gentleman is one of the editors of the Nor' Wester and held up to that time the office of Sheriff. However, the manly part he took in support of the people's rights, seems to have been distasteful to those in power, fo the Council almost immediately afterwards removed him from his office without making any distinct charge against him. This at tempt at barking free speech must fail in its objects. Mr. Ross has been appointed by the people of the Territory as their dele gate to the Home Government and at ou last accounts was on his way to England The leading journals in Canada speak favor ably of the objects for which he is sent, and desire that he shall be backed up in his efforts by their Government. They perceive the importance of opening up that extensive territory to general trade, and of extending British American interests towards th Pacific. The people of Minnesota from their greater proximity to Red River, have been

In this, notwithstanding the efforts of the Hudson Bay Company to monopolize it, they have not been altogether unsuccessful.

The Canadians desire that this outlet of trade shall be in our own territory. In this we must agree with them. The Northwest Territory, as it is called, is the great northern high road between the Pacific and Atlantic We desire to see that line of communication open in common with Canadians. If the latter ON SATURDAY EVENING, APRIL 18, nope to supply the present and future population of the extensive territory in question with the goods of Canada and Europe, we in part look forward to the time when we shall carry to them the productions of the East the teas, sugar, rice, silks, etc., of China and Japan, and the coffee and wines of Southern communication must be ever retarded while the present state of things exist in the north-west territory. As long as the Hudson's Bay Company are suffered to re tain their monopoly, so long will the people be in poverty. So long will every incentive to a rapid advancement in all the accompa niments of civilization be wanting. The Company must be placed upon the same footing as other traders-compelled to depend for their superiority upon their capital. The people of the Territory must have a good governmental machinery, upon as liberal principles as circumstances will allow Then we may expect to see a good road built up to the passes of the Rocky Mountains, so as to connect Canada with British Columbia. That do ie, the stream of emigration from Britain will pass through her North American Territories, from the Atlantic to the Pa cific. We then must be desirous that the pe tition of the people of Red River Settlement shall meet with the attention it de-serves from the Home Government. We are interested in the development of their country little less than they. It is quite probable that the whole question of the condition wants, and prospects of the British provinces in North America will be fully gone into it the present session of the Home Parliament when no doubt some good will be effected. Robbery.-We have been put in possess

ion of the particulars of a very heartless obbery which took place the day before yesterday on Johnson street, and we regret to state that the perpetrator has cluded the vigilance of the police up to the present time. About a fortnight since a stranger presented himsel to a man named Simpson, who is employed upon the wharves as a porter, representing himself as in destitute circumstances, and begging to be taken into his shanty. Simpbegging to be taken into his shanty. Simp-son generously acceded to the request, and kept the fellow ever since without any remuneration. On Wednesday morning he mentioned to his benefactor that he intended going to British Columbia, and was seemingly making preparations duving the day as if to leave by the Enterprise at night. In the afternoon Simpson was engaged at his business, and on returning home in the evening, found his box broken open and the sum of \$90 abstracted therefrom—being the poor man's winters savings. It is not known where the fellow is gone, but it is hoped that he may soon be in the hands of justice to pay the gonalty of his heartlessness. to pay the penalty of his heartlessness and rullianly conduct. Simpson deserves the ruffiantly conduct. Simpson deserves the sympathy of every feeling heart, as he has been made the victim of his kind and gener-

NEW MINERAL EXPLORING COMPANY .-We are gratified in being enabled to state that Mr. Evans, an English gentleman, who arrived by the steamer Brother Jonathan, has visited our Colony on behalf of an English capitalist for the purpose of exploring for copper and other minerals. Mr. Evans prees a body of picked miners and mechan ics] who left Liverpool in the ship," Rising Sun," bound to Victoria, and being himself a gentleman of considerable mining experience, intends to devote himself at once to the exploration of the hidden treasures of Vancouer Island, and the sister Colony, with their Dependencies. We look upon the arrival of Mr. Evans amongst us, as the dawn of a new era of prosperity to Her Majesty's possessions on the Pacific coast. The existence of valuable leads of copper, silver, lead, and other ores, in various parts of this and the adjacent blanch as well as on the properly all in proved beyond question—and when further-developed by the introduction of English capital, and English skill, it, is perhaps not anticipating too much when we predict that these colonies may bid fair to rival in their productive wealth any other Dependencies of the British Crown. In the event of sucthe British Crown. In the event of suchis parry, we are assured that further action on a much larger scale will be taken.

ANOTHER ACCIDENT FROM CHLOROFORM .n inquest was held lately at the General Hospitat, at Montreal, on the body of a woman named Ann McLaughlin, who died on Friday last while chloroform was being adoperation. The jury made a most careful and searching inquiry into all the circumstances of the case, and Dr. Beaubien was called in to make a post mortem examination of the body, after which the following verdict was rendered: "That the deceased, Ann McLaughlin, came to ber death from the effects. Laughlin, came to her death from the effects of chloroform *properly* and carefully admin-istered, preparatory to the performance of a painful and tedious surgical operation."

THE WEATHER .- During the past few days overcoats and cloaks which had been careful ly folded and put away under the idea that their services would not be required for some months to come, have been again called leed been exceedingly raw and chilly, and no wonder, when the surrounding mountains show a thicker mantle of snow than they have presented to view at any time during the winter. We hear that considerable snow has fallen in the neighborhood of New

weekly decrease of from five to seven thousand persons receiving relief in Lancashire up to the latest dates from England, and the funds of the Central Relief Committee amount to nearly half a million of pounds sterling. It was considered that the worst was over, and the summer coming on, employment would soon spring up for all who were willing to work.

VICTORIA THEATRE.—The performance last

there last winter. Two companies of white miners are opening claims, and anticipate making from \$15 to \$16 per day to the hand. Provisions are obtained from Fort Colville.

FIGHT ON YATES STREET .- Two sailors belonging to H. M. Navy had a regular set-to yesterday evening on Yates street, near the celebrated Mike Cohen's store. After several knock-down blows were given by the half intoxicated belligerents, some of the storekeepers in the vicinity interfered and put an

THE GOVERNMENT TAXES -- We would draw attention to the notice which appears in our advertising columns, requiring payment of the Government taxes, as assessed under the Trades License Amendment Act, into the Colonial Treasury office, on or before this day.

AN AWKWARD Fix .- An unfortunate wight in passing an open well near the Gas works. at a late hour on Wednesday night, happened to fall in. After some time his cries brought assistance to the spot, and he was fished out. We believe he sustained very little injury.

ARRIVED. - The schooner Mary Ann Ogilvy, arrived yesterday from Salt Spring Island, with a cargo of freestone for Messrs. Dickson, Campbell & Co.'s new store, and the sloop Fanny, Ketchum, with produce from Astoria.

Accident. - We understand the steame Enterprise met with an accident to her rudder, on her way out of the harbor on Wednesday night, which caused her detention unti 5 o'clock yesterday morning.

THE LATE COLLISION.—The steamer Eliza Anderson made good her repairs yesterday which were trifling compared with the injuries received by the Gov. Douglas.

STEAMSHIP FUSI YAMA. - This vessel die

Rock Cazek.—We have news from Rock Creek to the last of April. About a dozen white men and thirty Chinamen stopped hard the St. George at latest accounts.

But the strength of the gale, the thickness of the atmosphere and the darkness of the night, made it are in negociation for other properties in various parts of London, which will be applied to a similar purpose.

The case, Collingwood against Mr. Henry

and the darkness of the night, made it next to impossible that her movements should be seen; and, moreover, whether by accident or design, another steamer, the Hope, with her funnel painted exactly like the Sumter's, anchored near her. The Sumter yesterday was warped alongside the Britannia steamer. It was reported in the town that she had dragged her anchors, and sustained serious damage. from collision with another vessel. Carpenters were sent from the shore, and it was said that she would not be ready for sea for a week at least. Many believe that the saches described and any and consentating directors of the company, of which Colonel Sleigh was the manager. The jury decided that with the exception of Mr. Fenner—one of those whose names had been published as directors—they had, and gave a verdict for the plaintiff for £160. for a week at least. Many believe that the anchor dragging, collision, and carpentering were all parts of an artful dolge to throw the Chippewa off her guard. If they were so, the dodge, would probably have had the opposite effect, of rousing suspicion and stimulating the Chippewa to extra vigilance. Darkness and the gale were the real friends that therefore the secure of the Sunter. We that favored the escape of the Sumter. We last hear of her off Cape Spartel, which she

No doubt the telegraph wire has started American cruisers from Cadiz and Lisbon to intercept the Sumter, but the sea is a wide place, and by keeping a little out of the usual track she will probably run the gauntlet of her focs in safety. We have spoken of this vessel as the Sumter the name by which she is best known. Her proper designation is the Gibraltar, and her new owners doubtless hope she may prove like Gibraltar, rather hard to take." To this account it only remains to be added that the of the present day; our sympathy for him is profound; he seems to us at least equal to Balzac. It is pledged to gradual compensated comancipaton, the support of the General Government, and the formation of the southwest branch of the Pacific Railroad.

The following sensible remarks were made Paris, Feb. 16 .- The Monitour of to-day PARIS, Feb. 10.—The Monteur of to-day publishes the text of the reply given by the Emperor to the deputation who presented the address of the Corps Legislatif. The Emperor said:—"I congratulate myself on this agreement of the Corps Legislatif, which is more indispensable than ever at a time when the truth is obscured by hostile passions in all parts of the clobe. France must by Mr. G. W. Elliott, brother of Mr. Elliott of the the firm of Elliott and Stuart of the Lion Brewery, near this city, at the late meeting in London, held for the purpose of hearing addresses from Messrs. Cameron and sions in all parts of the globe. France must Mr. G. W. The real barrier, however, between it and those who would gladly avail themselves of its advantages is had been driven to seek employment in the construction of the Bourbonnais Railway have now returned to their looms. It is hoped that this good symptom may be speedy followed by others.

A French conrier has arrived in Paris

A French courier has arrived in Paris from Russia. He was stopped on the way by the insurgents in Lithuania, and was subjected to a regular examination. He was dismissed with this injunction:—" You have seen us, and now you may tell your Government that we are not Socialists, nor Communists, but that we are fighting simply for independence and for our nationality."

The Paris correspondent of the Times is from £25 to £30, it will at once be seen that it is beyond the reach of many who would prove most valuable emigrants to any colony; I speak not without authority, for I do not exaggerate when I say that within the last two months we have had upwards of one hundred applications for passages at our office, and I have seen with regret many a strong man turn away with sorrow when told that he could not hope to reach there under a sum wholly beyond his means. What is really wanted to enable our countrymen to take advantage of what British Columbia can offer, is cheap and assisted emigration, and if the two gentlemen who are here to day as the representatives of those colonies would put their shoulders to the wheel, and combine their efforts to obtain from the Colonial Minister the same advantages of emigration.

says :--Paris in the Spring; such, at least, is his present intention, as well as that of his imperial friend. The object of the projected vis-

it, is said to be to come to an understanding as to a common action in Belgian affairs, after the demise of King Loopold. The Paris correspondent of the Herald writes :--

"A circumstance from M. Drouyn de Lhuys, on the Polish insurrection, will short-ly be published. It is, I am informed, re-markable for the impartiality of its tone, and whilst not concealing the traditional sympa-thy of France towards Poland, must, at once, crush the hopes of the Poles, who have clung to the belief that they might expect from France moral support. Mr. Drown de Lhuys o the belief that they might expect from France moral support, Mr. Drouyn de Lhuys ud points out that the resort to violent meas ures is likely to check the progress of liberal reforms, which the Russian government had shown such praiseworthy intentions to carry

miles of the 1sthmus, besides being fleeced
at each end of the line of railway by extortionate hotel charges, and subject on the other side of the 1sthmus to the rapacity of

glance what are the real objects of the development of this route. I repeat, then,
that the cflorts of these two gentlemen should
be directed in the first place to improve, as
far as possible, the present means of emigration, the effect of which would be to land on
their shores a population which would subsequently make the project they propose not
only desirable, but easily obtainable; I hope,
therefore, that in their communications with
the Colonial Minister, these objects will not
be lost sight of, and I then feel assured that
the result will be that we shall have occasion

From this pa-per we gather that the armour-plated ships affoat, consist of two iron second rates, three iron third rates, and three wooden third rates; also there iron floating batteries, and four wooden floating batteries, and four wooden floating batteries. Of armor-plated vessels there are building four iron second rates, one iron third rate, three wooden third rates, one iron third rate turret ship, one wooden turet ship (converting), one wooden corvette sixth rate, and two sloops (wood), all of which are fitted with screws. We have afloat 56 screw ships of the line, and three more are being built. The number of screw frigates afloat are 38 and six building. There are also 16 paddle steam frigates affoat, and 13 effective sailing frigates. There are nine screw block ships, 26 screw corvettes, and four building; 37 screw steam sloops, and five building; 28 paddle steam sloops, and also affoat there are seven effective sailing steam. To those in addition we may ing sloops. To these, in addition, we may particularly also add that the number of steam serew gunboats affoat is 160, and six build-ing. The remainder of the war vessels affoat and building are all small craft of various kinds. The total as given in this paper as to number of steam vessels are—Screw vessels afloat 414, building 42; paddle steam vessels afloat 108, building 40; paddle steam vessels afloat 108 building two. This gives the grand total as follows: 522 steam vessel afloat and 44 building, and 103 sailing ships and small craft afloat and effective for service, making in all as the very could he new of the

A NOTABLE COUPLE.—There is, selling apples in San Francisco, a blind man named Findley, who, with his wife, walked across the plains last summer. Becoming blind from disease in Canada, he was advised to scek a more temperate climate and not having means to pay his passage here, he set out with his faithful wife to walk all the weary way. They shipped their bedding, etc., at New York, and set out on their dark and New York, and set out on their dark and dreary journey, the wife carrying the blankets and leading her husband by the hand. They had thus accomplished 1,400 miles, depending on the way stations for something to eat, and progressing at the rate of twenty and twenty-five miles daily, when the Overland stages took them up and brought them thro' at spells, when there was room in their coaches. Coing to the Ball.—Together we concocted the prottiest dress that ever made a young girl—her brain dizzy with the thoughts of her first ball—happy. And that first ball, is not forever marked with a white stone in the calendar of our recollections? Was it the calendar of our recollections? Was it not looked forward to as the seventh heaven? and looking back now, is it not the fairest of retrospects? City of Victoria.

CENTLEMEN,—YOU WILL SHOFTLY BE called upon to exercise the most sacred rights of Britons, in selecting men of your own free will to manage your own local affairs, scratinize said correct the course of Government, and adjust and impose taxation. While I reel that I have no especial claims to public support, I do claim, in common with my fellow citizens, that I have enbarked my capital, brought my family, ard expended some portion of my past energian that in a new country like this I have a right to aspire to a position in the mangement of its public affairs. I do not seek any office of emolument—I have never done so, nor is such my aim now. I am content to earn my living independent of Crown patronage; but the heavy of representing my fellow citizens is a distinction which any man might be proud of, and I aspire to that. I hold the equal rights of all men to be of the first importance in ell cases of legislation, and know no distinction of creed, color, or country. Every coloniat who has settled in this Colony as his future home, is entitled to equal privileges with his neighbor, and for such principles I will always confend.

his future home, is catitled to equal privileges with his neighbor, and for such principles I will always contend.

Heaven has given us a fine climate, a good harbor, a natural position as the critepot to a great part of Vask legton Territory and Enish Columbia; and in the present condition of American affairs so situated that with a Finur Porr and No Dent of any amount, we can supply a great share of the Pacific coast cheaper than they can possibly be supplied from clsewhere.

I am fully alive to the, advantages we possess, and it is my anxious desire to forward our interests, particularly rullorad and harbor enterprises; to watch and guard against corruption and misgorenment; to see that equal rights and cheap administration are preserved; that law costs and lawyers are looked after, without permitting to them exclusive privileges or business monopolies; that the merel sut, tradesman, mechanic and artizan is protected and supported; land granted free, or at nominal rates to actual settlers, with a view to encourage that important interest; specul-tors and land jobbers checked and frustrated, and that the all-pervading rule of Government foliciels, dabbling in mines, town sites and public questions of great importance upon which it will sucak hereafter, as

in mines, town sites and public lands, may be abolished.

There are many other public questions of great importance upon which I will speak hereafter, as they cannot be referred to within the limits of this address, but if you see fit to honor me with your confidence and support, you may rely that for neither inducements of office or patronage, no printing or other jobs will pass without exposure. And should it not be your pleasure to elect me, I will support cheerfully whomsoever you think fit to elect, so long as they follow a line of policy similar: bits t lave here laid down.

I have the honor to be Centlemen,
Your obedient servant,
EDWARD BEATTY EARLES.

SIR:—I cannot resist informing you of the extraordinary effect I have experienced by taking
only a few of your LOZENGES. I had a cough
for several weeks that defied all that had been
prescribed for me; and yet I got completely rid of
it by taking about half a small box of your Lozcuges, which I find are the only ones that relieve
the cough without deranging the stomach or digestive organs,
I am sir, your humble servant,
F. HAWKER.
